Construction Notes & Permitted Modifications

This machine has the "standard" Westwood chassis, the main appearance is the styling of the dash, bonnet, rear body/ mudguards and footplates. See photos for details.

In order to achieve the appropriate height from underside of seat to centre line of rear axle, the minimum amount of metal-work may be removed to accommodate this. Note should be made that excessive removal of material in this area will require replacement at the discretion of the race committee / scrutineer.
