

THE BRITISH LAWN MOWER RACING ASSOCIATION

BLMRA Approved Homologation Sheet #62

Make	Westwood
Model	Gazelle/Lazer
Y.O.M	1980-1986
Last Update	01/01/26

Approved Dimensions & Specifications (mm)

Eligible Racing Class	BLMRA Group 4
Drive Method	Belt Drive
Wheelbase	1168
Front Track (from centre of the tyres)	737
Rear track (from centre of the tyres)	648
Rear width outside to outside edge of tyres	864
Front Tyre size	13 x 5 x 6
Rear Tyre size	15 x 6 x 6
Engine Size	As per current BLMRA regs
Engine Manufacturer	As per current BLMRA regs
Engine Alignment (centre of crankshaft to front of chassis)	191
Height of Front of chassis (ground to top)	254
Height of Rear of chassis (ground to top)	25.4
Height of Dash board from top of chassis	470
Front of chassis to leading edge of dashboard assembly	489
Length of bonnet	800
Width of Bonnet at widest point	356
Depth of bonnet at deepest point	178
Chassis width at edge to edge of foot plates	660
Overall chassis length (Measured to rear of box at back at deck level)	1295
Seat Height (centre of axle to underside of seat base panel)	191 (minimum)

Construction Notes & Permitted Modifications

The following specifications apply to the Westwood "W series" (Gazelle) and Lazer Tractors made in 1980's. You may use any of the chassis, W6, W8, W11 or W16. They came with a number of different style bonnets and nose cones depending on the model. You will find that some of the bonnets are flared at the front and some will be parallel. The nose cones also varied, some had a metal grill, and others had a plastic nose which may or may not have had a pair of lights incorporated into it.

In order to achieve the appropriate height from underside of seat to centre line of rear axle the minimum amount of metal-work may be removed to accommodate this. Note should be made that excessive removal of material in any area will require replacement at the discretion of the race committee / scrutineer.
