

Make	Wheel Horse
Model	B211-3
Y.O.M	1985-1987
Last Update	01/01/26

## Approved Dimensions & Specifications (mm)

Eligible Racing Class	BLMRA Group 4
Drive Method	Belt Drive
Wheelbase	1200
Front Track (from centre of the tyres)	685
Front Track (from outside to outside of tyres)	n/a
Rear Track (from centre of the tyres)	673
Rear Track (from outside to outside of tyres)	915
Front Tyre size	13 x 5 x 6 (minimum)
Rear Tyre size	15 x 6 x 6 (minimum)
Engine Size	As per current BLMRA regs
Engine Manufacturer	As per current BLMRA regs
Engine Alignment (centre of crankshaft to front of chassis)	209
Height of Front of chassis (ground to top)	254
Height of Rear of chassis (ground to top)	254
Height of Dash board from top of chassis	432
The front of chassis to leading edge of dashboard measured at deck level	546
Length of bonnet	635
Width of Bonnet at widest point	381
Depth of bonnet at deepest point	121
Chassis width at edge to edge of foot plates	686
Overall chassis length	1257
Front of chassis to centre of rear axle	1187
Seat Height (centre of axle to underside of seat base panel)	190 (minimum)

## Construction Notes & Permitted Modifications

The following specifications / description apply to the Wheelhorse 211-3 B version. This mower is generally of steel construction with a presses pan type chassis, steel bonnet, nosecone and rear mudguards. The mower is not dissimilar to other wheelhorse models of the same era such as the 212 series. In order to achieve the appropriate height from underside of seat to centre line of rear axle the minimum amount of metalwork may be removed to accommodate this. Note should be made that excessive removal of material in any area will require replacement at the discretion of the race committee / scrutineer. The rear tow point should be removed and made safe. The original mower had 3 tyre size options as with all homologation details the next size up only from the smallest is used for width calculations.
