

Make	Westwood
Model	T1200
Y.O.M	1987-88
Last Update	01/01/26

Approved Dimensions & Specifications (mm)

Eligible Racing Class	BLMRA Group 4
Drive Method	Belt Drive
Wheelbase	1143
Front Track (outside to outside edge of tyres)	890
Rear Track (outside to outside edge of tyres)	890
Front Tyre size	13 x 5 x 6
Rear Tyre size	15 x 6 x 6
Engine Size	As per current BLMRA regs
Engine Manufacturer	As per current BLMRA regs
Engine Alignment (centre of crankshaft to front of chassis)	133
Height of Front of chassis (ground to top)	254
Height of Rear of chassis (ground to top)	254
Height of Dash board from top of chassis	546
Front of chassis to leading edge of dashboard assembly	527
Length of bonnet	825
Width of Bonnet at widest point	470
Depth of bonnet at deepest point	457
Chassis width at edge to edge of foot plates	679
Overall chassis length	127
Front of chassis to centre of rear axle	1130
Seat Height (centre of axle to underside of seat base panel)	191 (minimum)

Construction Notes & Permitted Modifications

This was primarily a development of the original W series westwood and looks similar in overall appearance. Generally the materials are of heavier gauge than the W series machines and engines were larger in this series.

In order to achieve the appropriate height from underside of seat to centre line of rear axle the minimum amount of metal-work may be removed to accommodate this. Note should be made that excessive removal of material in any area will require replacement at the discretion of the race committee / scrutineer.
