Construction Notes & Permitted Modifications

In order to achieve the appropriate height from underside of seat to centre line of rear axle the minimum amount of metal-work may be removed to accommodate this. Note should be made that excessive removal of material in this area will require replacement at the discretion of the race committee / scrutineer.

Tow eye to be removed

Dash panel is defined as the sloping area from the aft rounded edge up to the pressed swage line for the bonnet slam panel. The steering column may pass through any of this sloping area.
